

# Portainer - Manage your containers

## Summary

Portainer is a container management service for docker containers.

## Installation via docker-compose

```
version: "3.3"

services:
  portainer:
    image: "portainer/portainer-ce"
    ports:
      - 9000:9000
    volumes:
      - "/var/run/docker.sock:/var/run/docker.sock:ro"
      - "/home/ubuntu/docker/portainer/data:/data"
    restart: always
```

To change to business edition, use image **portainer/portainer-ee**. You can [get up to 5 nodes for free](#).

## Setup

Create a administrator user, for example admin.

## ▼ New Portainer installation

Please create the initial administrator user.

Username

admin

Password
