Boot Sticks

ISOs

[Ubuntu](#)

[Windows Media Creation Tool](#) (Current Version 21H2: [MediaCreationTool21H2.exe](#))

Rufus

Software to flash an ISO to a USB-Stick

[Website](#)

Rufus 3.2.0 Portable: [rufus-3.20p.exe](#)

Yumi

Software to create multi ISO boot sticks. Yumi prepares the drive and you can simply add ISOs down the road with the YUMI installer. I use exFAT as it is the only version that supports BIOS and UEFI.

[Website](#)

Download: [YUMI-exFAT-1.0.0.7.exe](#)

Gain access to 'System Volume Information'

To gain access to a 'System Volume Information' folder, open CMD as administrator and use the commands:

```
icacls "C:\system volume information" /grant <USERNAME>:F  
icacls "C:\system volume information" /grant <USERNAME>:F /t
```

Drivers

WiFi Driver for Inspiron 17 5767
